

# EXHIBIT D

**Brook Jackson** 🧠💜 @IamBrookJackson · Aug 7

...

It's been 1 yr, 10 mo, 14 days since I reported fraud in P fizer's clinical trial to the F DA; months before any approval was granted - still no investigation

The product was not safe or effective in 2020 & is doing more harm today than I think anyone could have ever imagined.

...

When asked about this now, F DA has no comment.

But, P fizer tells us to kiss their ass because 1) the F DA knew about the fraud and approved it anyway and 2) the DoD contract used to negotiate the purchase of the shots didn't require them to follow the law.

It actually gets worse doesn't it, US DOJ? You also refuse to investigate! Department of Justice my ass! More like the Department of Injustice. The American people deserve better!
